JUDGE 1	NAIL LENGTH	20	
	The length has to be consistent & in proportion with the hand & the fingers on all 5 nails. The nails should be in line with the proximal phalanges & metacarpal head bones. The pinkie must be shorter than the ring & index fingers. The ring & index fingers have to be shorter than the middle finger & the thumb. The nail measured from the cuticle area (top view) to the point of the stiletto (top view). The correct length of the stiletto should be nail bed 40:60 extension. From the top view, side lines should not be wider than the natural nail fold & not filed away. From the top view, side lines at the extension must come out of the lateral sidewall & taper into a triangle, then end at the sharp point of the stiletto.		
	LOWER ARCH / LOWER SIDE LINE (SIDE VIEW)	20	
	The lower side lines should be even, neat & extend straight out from the lateral fold on both sides. They must meet the upper arch from the side view on the sharp end point of the stiletto. No step or ridges on the sidewalls. When observing the side lines from the side view, both should be at the same height.
